N U N O ' S L A W S

★ HIGHEST GOALS / PERSISTENCE

- Always shoot for the stars.
- If you failed... try again. Get used to failure. Fail and learn from it.
- Don't find excuses. Find solutions.
- Persistence is fundamental.
- Accept multiple projects.

URGENCY

- Do it today. There is no time to wait. Learn by doing. Do it now.
- Time passes astonishingly fast. Our most important goals may be unrealised.

HEAR-NO-ONE

- Let no one tell you "you can't do it". Ignore opinions... but consider supported arguments.
- Pursue your dreams... especially when everyone says it is impossible.

PEOPLE

- People is all that matters.
- Always focus on the people.

MONEY / SPACE AND TIME

- Money helps find a solution (most of the time).
- Remember: the universe has over 100 billion galaxies, each galaxy (in average) has over 100 billion stars, which exist for over 13 billion years.
